residents as may reasonably meet the Company's qualifications. The Project operator must agree to make offers for such positions first to those City residents applying for the job position that meet the Project operator's requirements.

Following completion of construction and issuance of a certificate of occupancy, within 30 days following the end of each calendar quarter, the Company shall deliver to the Agency a report setting forth the number of persons employed at the Project (full time and full time equivalents) and identifying the number of full time equivalent employees that are City residents. If a Company quarterly report does not demonstrate that at least 30% of all employees working at the Project (on a full time equivalent basis) are City residents, the Company must also detail the efforts that it is undertaking to hire City residents.
